December 2019

EXPERIENCE

MICROSOFT CORPORATION

Remote

Partner Account Manager, OEM & Digital Partnerships — Microsoft (contracted)

July 2023 - May 2025

- Drove \$5M+ in partner revenue across India and ANZ by leading onboarding and enablement strategies for OEM Windows, Office, and Server products, helping partners activate adoption plans and exceed regional target by 150%
- Developed strategic adoption roadmaps for 9 OEM partners across India and ANZ, advising partner executives on licensing, rollout strategy, and customer adoption across complex enterprise and public sector environments
- Exceeded FY24 sales target in the Australia region by 250%, generating \$818K in revenue against a \$327K goal through partner enablement and strategic upselling initiatives
- Managed a \$5M+ cross functional pipeline with Partner Development Managers, solution sales, and engineering teams, resolving technical blockers and coordinating execution to improve partner readiness and drive 121% target attainment across ANZ

Dallas, Texas

Technical Account Manager / Customer Success Account Manager (Full-Time)

January 2020 - March 2023

- Managed 15+ enterprise accounts representing 30,000+ end users across multiple industries, delivering technical enablement programs including workshops, Azure adoption assessments, platform onboarding, and executive business reviews to drive product adoption and align technical solutions with business goals
- Achieved 100% renewal attainment across 15+ enterprise accounts representing \$4M+ in annual contract value over 3 consecutive years by strengthening customer retention, aligning solutions to business needs, and driving long term adoption
- Improved client satisfaction scores by 20% by resolving 100+ cross functional issues with engineers and architects, removing adoption blockers and improving customer outcomes in complex enterprise environments
- Collaborated with the Microsoft Canada team to negotiate a two-year enterprise support agreement for a global client, tailoring service coverage and escalation workflows to reduce downtime and drive \$1M in revenue
- Identified expansion opportunities through strategic roadmap discussions with account teams, driving ~\$1.5M in incremental contract value over 3 years by connecting customer needs to higher value cloud and support solutions

UNITED STATES AIR FORCE

South Korea

Logistics Analyst, Senior Airman (E-4)

July 2013 – July 2017

- Improved equipment distribution processes and streamlined issuance of 123,000 parts valued at \$189 million, reducing turnaround times by 25%
- Redesigned hazardous material tracking system, reducing audit discrepancies by 60% and earning an innovation award, improving F-16 readiness across the Korean Peninsula
- Held U.S. Government Secret security clearance
